

Here are some links of a customer who is using our ACER Grinder:

The customer is holding .00005 or less in 5" all the time on the 6\*18 grinder. If interested check out this

video, <https://www.youtube.com/watch?v=Ftu2BosKNyk>

Also, using a high precision air spindle he converted the grinder into an I.D and Jig grinder in the following videos,
